***Allowable Subject Matter***

1. Claims 1-5 and 13-17 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1-5 and 13-17, the prior art of record neither anticipates nor renders obvious all the limitations of the base claim 1, including: an asymmetric channel stop diffusion of a second conductivity type opposite to the first conductivity type, wherein the asymmetric channel stop diffusion extends from the first major surface on the outer side of the trench and further extends under the trench from the outer side to the inner side of the trench to define an area of higher doping concentration adjacent to the outer side of the trench and an area of lower doping concentration adjacent to the inner side of the trench. Claims 2-5 and 13-17 depend from claim 1, and thus are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
